SUBJECT: Recognition of Biokinetics Test Laboratory for the Evaluation of Ballistic Body Armour for Defence Research and Development Canada, Valcartier Research Centre

References: None

1. The purpose of this letter is to confirm that Biokinetics and Associates Ltd. (Biokinetics), located in Ottawa, Ontario, Canada, has scientific and technical knowledge and competency to conduct ballistic protection performance laboratory tests related to body armour, such as ballistic limit (V50) and back face signature assessments to industry and military standards including specifications from DND, DRDC, STANAG, NIJ and MIL.
2. The Defence Research and Development Canada, Valcartier Research Centre (DRDC Valcartier) has contracted Biokinetics numerous times in the past several years and can confirm their work is conducted in conformation to established requirements; the test results being admissible at all levels of scrutiny within DRDC. Collaborations between DRDC Valcartier and Biokinetics are ongoing as they are considered competent and trustworthy to apply industry and military standards for this type of testing.
