SUBJECT: Recognition of Biokinetics Test Laboratory for the Evaluation of Ballistic Body Armour for the Royal Canadian Mounted Police (RCMP)

The purpose of this letter is to confirm that Biokinetics and Associates Ltd. (Biokinetics), located in Ottawa, Ontario, Canada, is competent to conduct the protection performance laboratory tests related to body armour, such as ballistic V50 and back face signature assessments, against the ballistic resistance standards developed by the RCMP to support operational policing across Canada.

The RCMP has contracted Biokinetics numerous times in the past several years, and the tests carried out by them conform to the established standards and are admissible at all levels of scrutiny within the RCMP. Collaborations between the RCMP and Biokinetics are ongoing as they are considered competent, trustworthy and in-line with industry standards for this type of testing.

Do not hesitate to contact me directly for any further information.

Yours truly,

Supt. I.R. Cowan  
Director, Uniform & Equipment Program  
440 Coventry Road  
Ottawa, ON
